RPA

Robot Process Automation (RPA) solutions can help a business to achieve operation automation goals.

DEVOPS

DevOps has made it possible to create customized software and applications in a far quicker time by adjusting development and operations teams through DevOps.

QA AUTOMATION

Any product life cycle Quality Assurance and testing are incredibly crucial and are executed efficiently from the earliest phase of the undertaking.

UI/UX

Tech Anand Rathi offers a complete package of CUSTOM UI development services that make your website/ application exceptional and impressive to look and feel.

AGILE METHODOLOGY

Agile Methodology primarily showcases modern-day working and promotes iterative development throughout the software development life cycle of the project.

PERFORMANCE ENGINEERING

Performance Engineering is a successful completion of sequential steps or processes. We adapt the most appropriate Software Development Lifecycle methodology.

Our Products

- CRM
- ARIABot
- E-HR
- Benefit Plus

CRM

(Customer Relationship Management)

A superior way to deal with your business, ventures, group and marketing - on a single platform. Incredible, reasonable and simple to utilize the software for your business. Our CRM guarantees that each step of the association with buyers goes smoothly and efficiently in order to increase the overall profits.

ARIABot

(Anand Rathi Intelligent Assistance)

We designed and developed the AriaBot - Chatbot framework which is a type of conversational agent, a computer program designed to imitate an intelligent conversation with one or more human users in natural language via auditory or textual methods.

E-HR

Our E-HR software which we developed, optimized and revamped in 2016 is a function of HR that is concerned with the use, management, and regulation of electronic information and processes within an organization.

Benefit Plus

The Benefit Plus is the platform for all your Employee benefits and wellbeing needs. The legacy that deals with all your Employee benefits and health worries with enrolment and claims analytical reports readily available.
